

One of the **Nine Strongest Life Insurance Groups in the World***

Western & Southern Financial Group is incredibly strong on the financial front. The disciplined way we approach our business has resulted in a financial strength that is at the top of the industry. This financial strength will help us withstand the current challenges. We are one of the nine strongest life insurance groups in the world among those rated by Standard & Poor's. As one of the highest-rated insurers, we also were profiled in Best's Review magazine (July 2009) among 14 life/health insurers that have maintained an A or higher financial strength rating for the past 75 years.

Despite the U.S. economy's slow start to recovery in 2009, Western & Southern's insurance businesses achieved another year of record sales. We believe this confidence in our company is a direct result of clients pursuing a flight to quality. They are seeking strong, safe companies to provide their financial services. At Western & Southern, we take their financial security seriously — very seriously.

A History of Financial Strength: Western & Southern Financial Group

- **120 Years of Success**

Our heritage began in 1888, when our founders sought to make financial security attainable for ordinary citizens. They achieved their goal by establishing The Western and Southern Life Insurance Company. The leaders who followed them expanded their vision. Today, Western & Southern Financial Group is a Fortune 500 company (*FORTUNE* magazine, May 2010). We are a rapidly growing, service-oriented family of companies providing life and health insurance, annuities, mutual funds and investment management to millions of people.

- **A Mutual Holding Company**

As a mutual holding company that is not publicly traded, Western & Southern Financial Group is not subject to the short-term market pressures that put a priority on short-term results. Instead, we invest for the long-term. We continuously monitor and adjust our investment portfolios using rigorous asset-to-liability management processes. The result is a focused and disciplined portfolio that is aligned with the long-term interests of our policyholders.

- **Culture, Capital, Capacity and Competence**

The four cornerstones of our business model are culture, capital, capacity and competence. Our emphasis on doing what is right for our customers, our robust financial performance, our ability to do more with less, and our respected position within the financial services industry continue to contribute to Western & Southern's stability and success. We remain steadfast in our passion and unwavering focus on customers — a hallmark of our company for more than 120 years.

- **Diversification and Growth**

Over the last 21 years, Western & Southern Financial Group has exemplified strategic diversification by expanding our family of companies and introducing a full array of financial products and services. We have been a Fortune 500 company since 2004 based on consistent sales and earnings growth. Today, our enterprise includes more than 14 member companies offering life and health insurance, investment management, annuity and mutual fund products and services, and financial services. Collectively, our diversification can help minimize risk and maximize performance for our customers, particularly during changing economic cycles and volatile markets.

We Will Be There When Our Customers Need Us

Financial stability is critical for any high-performance organization. However, it becomes even more essential during downturns in the national economy. One measure of financial stability is industry ratings.

All our financial strength ratings by independent rating agencies — A.M. Best, Standard & Poor's, Fitch and Moody's — underscore the unmatched financial strength of the Western & Southern family of companies. In fact, Western & Southern is one of the nine strongest life insurance groups in the world based on Standard & Poor's ratings. We have a "Stable" outlook from all rating agencies, and a high Comdex score, which is a composite of all the ratings we receive. Western & Southern is ranked among the top life insurance companies for financial strength in our industry.

| Industry Ratings | | | | |
|-------------------------------------------------------------|---------------------------------------------------------------|--------------------------------------------------------------------------------------|-----------------------------------------------------------------|---------------------------------------------|
| A.M. Best | Standard & Poor's | Fitch | Moody's | Comdex |
| A+ Superior | AA+ Very Strong | AA Very Strong | Aa3 Excellent ¹ | 97 out of 100 |
| Superior ability to meet ongoing insurance obligations | Very strong financial security characteristics | Very strong capacity to meet policyholder and contract obligations on a timely basis | Excellent financial security | Composite of all ratings a company receives |
| <i>(second highest of 16 ratings; held since June 2009)</i> | <i>(second highest of 21 ratings; held since August 2005)</i> | <i>(third highest of 21 ratings; held since June 2009)</i> | <i>(fourth highest of 21 ratings; held since February 2009)</i> | |

The ratings published in this flyer are correct as of April 15, 2010, and are subject to change. Ratings refer to the claims-paying ability of the insurance company and do not reflect the performance or safety of any investment product. The rating agencies listed above are independent of each other and use proprietary evaluation criteria and rating scales.
